An important note: in early March DSP enabled "tipping" aka direct PayPal donations. These obviously aren't noted in chat & might only be noted on video if they occur during a stream.
No way to track them reliably so this means DSP is taking in more than it appears.

Another thought: Since late May it seems new subs MUST hit share for the "msg-id=sub" notifications to show up, so some subs may never be noted in the chatlogs - DSP may get more subs from now that we can't easily see.

After someone used a streamlabs cheering emote in March 2017, doing some research I found out beyond cheer/kappa/kreygasm/swiftrage there's also streamlabs & muxy ones: <http://i.imgur.com/B21oNRQ.gif>
I have checked through all logs to this point & I've missed none of these cheers.

Also these aren't a total of the running number of subscribers DSP has, it's a total of how many sub payments have gone through. Consider this:

20170101 [11:57] <darksydephil> I currently have 145 total subs, pretty sweet!

20170103 [12:05] <darksydephil> Damn, i lost a lot of subs

20170103 [12:05] <darksydephil> just checked and about 20 people's subs ran out and they haven't renewed

20170316 [10:55] <darksydephil> nice up to 194 subs and growing!

20170319 Early in prestream DSP notes he's up to around 210 subs.

20170320 [11:04] <darksydephil> btw i now have 213 subs. i actually had like 219 but a few people lapsed overnight

20170322 [11:03] <darksydephil> up to 236 subs, sweet

20170323 [11:13] <darksydephil> btw today wer'e up to 239 subs

20170324 During the stream DSP notes he's hit 250 subs, after the stream he tweets about it (250 means he can add a 9th & 10th emote)

20170407 [11:04] <darksydephil> whoa [11:04] <darksydephil> i dropped from over 270 subs to 256 today...

[11:04] <darksydephil> so i guess a LOT of peopels subs expired

20170410 [10:56] <darksydephil> Welp we've dropped to 239 subs, hopefully this means a lot of people are going to resub soon

20170416 During prestream, ~7:42 into Mrhuth's edited video, "The subs are way down, I'm not gonna lie everybody, the subs are down to like 230 something"

20170424 [11:08] <darksydephil> we're down to 218 subs :(<darksydephil> the lack of new releases this month really killed it <darksydephil> hopefully next month we boost up again

20170425 DSP tweets showing his 60/70% cut for the new \$9.99/\$24.99 subs, which also shows his current sub count: 220 \$4.99 subs & no \$9.99/\$24.99 subs.

20170507 [11:07] <darksydephil> thanks theCommod0re ! <darksydephil> we're back up to 227 subs now <darksydephil> a slow creep back up lol

20170625 Late in prestream plugs segment talking about sub only mode, claims count is fluctuating between 230 & 250 subs.

20170628 Late in prestream, DSP thinks he almost hit 250 subs, claims usually 220-240.

20170727 prestream, notes a drop in subs, was over 270 subs now under 230

20170808 [12:34] <darksydephil> damn a lot of subs expired <darksydephil> hopefully we get some back today!

20170810 [12:49] <darksydephil> a lot of subs have dropped off recently, probably bc early August has been slow, so hoping to get those back soon, maybe today

20170810 [19:12] <darksydephil> ouch, subs dropped way down to 224 <darksydephil> actually 223 [19:24] <darksydephil> the highest ive had was like, 283 i think <darksydephil> but i knew the summer would do this <darksydephil> should earn some back when new games begin

20170811 [12:35] <darksydephil> damn subs dropped bigtime, i hope we can get some back this weekend *Also brings it up late in the prestream, claiming a drop of 40 subs.*

20170813 [12:48] <darksydephil> damn down to 209 subs, whats going on here <darksydephil> hopefully the

new releases bring people back this week

20171028 ~20mins into prestream, notes almost at record highest sub count, now in 270s [thanks to 40+ in Choice Chamber, ~18 were trolls], claims record high was 280 for Dark Souls 2 in summer, hopes to hit 300 during new games hype. "Just throwing that out there"

20171031 DSP brings up hoping to go from 277 subs to record high of 283 before he starts gameplay, he gets 11 subs over the Halloween marathon & later tweets that he matched that record high.

<https://twitter.com/TheyCallMeDSP/status/925593919135498241>

20171103 More subs hyping, claims 282 for both prestreams, thanks to a couple \$10 subs & others DSP claims a new record of 291 subs after the 2nd stream.

20171104-01 [12:37] <darksydephil> BTW i'm up to 291 subs now, a new record. if we get a few more, I hit 300 sub points, which means i get more emotes and stuff unlocked for subscribers | A tweet after this stream notes he hit 294 subs: <https://twitter.com/TheyCallMeDSP/status/926963415167352832>

20171104-02 [19:33] <darksydephil> btw we're now up to 295 subs! [19:33] <darksydephil> so close to 300 | A tweet after second stream he notes still 295 & hopes to hit 300

<https://twitter.com/TheyCallMeDSP/status/927076277558718464>

20171105 [12:17] <darksydephil> whoa we're up to 298 subs! | Later hits 300 subs during prestream, hopes to maintain 300+ subs in future even with TwitchCon trolls lapsing.

20171106-02 Claims 301 subs, "unfortunately down to about 290" "actually 289 right now" during Sonic Forces prestream

20171107-01 ~22mins into prestream video, whines that he's back to 290 subs, repeating the logic of losing subs exactly 1 month later... except October 4th-8th was 'time off' & no subs were shared at all on October 6th or 7th.

20171110-02 phillyjake94 notes his resub didn't get shared, I can confirm no sign of it in my logs or on OverRustle. He was an 11 month Prime sub last month, so either his sub outright failed or this is a good example of missing subs when they don't hit the share button.

20171111-01 [12:31] <darksydephil> holy crap!; i'm up to 304 subs! [12:32] <darksydephil> i seriously didnt pay attention; thats the new record! [12:35] <darksydephil> actually its 40 more subs bc i already have 310 sub points from a few tier 2 subs that give more

20171111-01 Tweets that he hit a record 306 subs after the Sonic Forces main stream

<https://twitter.com/TheyCallMeDSP/status/929522697968562176>

20171111-02 [19:42] <darksydephil> darn we dropped to 303 subs [19:42] <darksydephil> i knew that would happen

20171113-01 Prestream, notes he's down to 294 subs ~7mins in

20171115-01 Stream outro states back at 301 subs

20171116-01 Stream outro states back at 302 subs

20171121-01 Prestream, ~23mins in states he's down to 294, whines that the TwitchCon drop tomorrow will be the "subpocalypse"

20171122-01 **Note this is 4 higher than prestream yesterday** [12:28] <darksydephil> welp the subpocalypse is upon us lol [12:28] <darksydephil> im at 298 subs now, i predict 250 by the end of stream

20171125 [19:43] <darksydephil> btw today was finally the big unsubbing day, im back down to 286 subs as i suspected i would drop [19:43] <darksydephil> i even suspect about 15 or so more in the next day

20171125 [19:45] <darksydephil> subs were up to 308 yesterday before the drop [19:45] <darksydephil> so we lost over 20, because more people subbed today, probably around 30 total

20171126 WiP ~8 minutes in, DSP confirms old peak of 308 and down in the 280s now, while talking about needing to hit X subs at one point in the month for 2018+ Patreon goals.

20171129 Prestream, ~11:15 in DSP states currently 283 subs.

20171211 WiP, DSP claims Twitch has a promotion where subs & gifted subs are 20% off. I'm going to assume Twitch sucks up all that loss so DSP gets the same cut.

20171211 Prestream for late stream, "I lost- I'm not even kidding, I lost about 35-40 subs while I was gone", understands why, expects a "ton of resubs" when people realize he's back, asks the current viewers to check if they fell out of subbing & "resub if you so desire". No current number given.

20171212 Stream outro, notes the lost subs again, implying it hasn't gone up significantly yet.

20171216-02 Informal prestream, DSP notes he's "almost up there" to the old subs record, now at 295 subs vs.

308 record.

20171219 "back up to 298 subs" early in shoutouts for the main prestream, later 'up to 300, can we beat the record of 308 today?' "301 subs" after Bobbi_Ling's gifted sub

20171221 AtK informal prestream, ~14:45 in DSP notes he is down to 293 subs. No subs during Ask the King at all.

20171222 Late in PUBG, claims he started today's stream at 283 and is now at 303 subs ~20:03 PST.

20171223 Tweeted claiming he's hit a record 316 subs after the second stream

<https://twitter.com/TheyCallMeDSP/status/944819242469224448>

20171224 Tweet well after the stream noting a new record of 320 subs

<https://twitter.com/TheyCallMeDSP/status/945195481486868480>

20171225 After PUBG stream, tweets that he's still at record 344 subs.

<https://twitter.com/TheyCallMeDSP/status/945554864544681984>

20171227-02 Stream outro, ending at 338 subs. "We even got some Patron pledges tonight which is nice"

20171228 [11:26] <darksydephil> we're still at 338 subs, sweet

20171229-01 ~46mins into prestream, DSP notes he has 335 subscribers.

20171230 After both fundraising streams, DSP announces hitting record 367 & then 379 subs

<https://twitter.com/TheyCallMeDSP/status/947369781912465408>

20171231 ~64 minutes into prestream DSP notes he's hit a record 381 subs.

So we can have no idea how many subs DSP truly has, especially when I fucked up & missed resub notifications for a few days.

A quick note: Twitch treats resub messages strangely. Unlike the twitchnotify account for subs, resubs are sent through an IRCv3 USERNOTICE.

I have an awkward method for logging them. I've edited them into the logs manually, like this example:

[12:10] * HumpierShaggy subscribed for 2 months in a row! "Happy new year, Philis!"

[mod=0;msg-id=resub;msg-param-months=2;room-id=261767;subscriber=1;turbo=0;user-id=61642816]

The 2nd section in ""s is any optional message included with the resub. The last section is partial raw data I got in the message, indicating they "resub"bed & this is their "2"nd month. Raw version follows:

[12:10] <-

@badges=subscriber/0,premium/1;color=#FF0000;display-name=HumpierShaggy;emotes=;id=33f23ce7-bce4-4452-baa5-b928d2168812;login=humpiershaggy;mod=0;msg-id=resub;msg-param-months=2;room-id=261767;subscriber=1;system-msg=HumpierShaggy\ssubscribed\sfor\s2\smmonths\s\sin\sasrow!;tmi-sent-ts=1483301428330;turbo=0;user-id=61642816;user-type= :tmi.twitch.tv USERNOTICE #darksydephil :Happy new year, Philis!

On April 24th Twitch seems to have enabled the new \$9.99 & \$24.99 sub tiers:

NOTE the new "\$4.99 sub" description, looks like the \$9.99 & \$24.99 sub tiers were enabled during this stream.

20170424 [15:23] * lvlpower just subscribed with a \$4.99 sub. lvlpower subscribed for 5 months in a row! "Give me my crow like king !" [mod=0;msg-id=resub;msg-param-months=5;room-id=261767;subscriber=1]

DSP notes this before prestream on April 25th:

20170425 [11:08] <darksydephil> apparently twitch changed a bunch of stuff overnight [11:08] <darksydephil> they enabled the \$9.99 and \$24.99 subs

20170425 [11:08] <darksydephil> they added a ton of new emotes, so i can now add like 4-5 new ones including ones just for those premium sub tiers

The first \$9.99 sub I've seen comes in on April 27th:

[11:52] * Miss_Kelcher just subscribed with a \$9.99 sub. Miss_Kelcher subscribed for 2 months in a row! "Yo, I think I upped my subscription to 10 bucks, not sure if it worked, though"

[mod=0;msg-id=resub;msg-param-months=2;msg-param-sub-plan-name=Channel\Subscription\s(darksydephil):\s\$9.99\sSub;msg-param-sub-plan=2000;room-id=261767;subscriber=1]

The first \$24.99 sub I've seen comes in on June 11th:

[19:45] * the_abstract1 just subscribed with a \$24.99 sub!

[mod=0;msg-id=sub;msg-param-months=1;msg-param-sub-plan-name=Channel\Subscription\s(darksydephil):\s\$24.99\sSub;msg-param-sub-plan=3000;room-id=261767;subscriber=1]

DSP showed an image that he gets a 60% cut from \$9.99 subs & a 70% cut from \$24.99 subs. As the streamer gets \$2.50 for '50%' from a \$4.99 sub, this would be \$6 & \$17.50 respectively:

<https://twitter.com/Drgnkiller/status/857096364727128064>

<https://twitter.com/TheyCallMeDSP/status/857091889224462336>

A final point: So far we haven't see any <twitchnotify> messages stating \$4.99 etc., so those new non-Prime subs COULD be \$9.99 or \$24.99 but I doubt it. Another possible reason that these numbers are vague.

On April 30th a user noted that you can now hit a share button for deliberately resharing a subscription notification:

20170430 [16:35] <wj02003> For people subbing/resubbing are you refreshing the page? Twitch made a change and you must hit the share button on the top of the chat window for alerts to pop now.

Afterwards these next 2 messages are raw like resubs & didn't show up in the standard log, they are duplicates of standard twitchnotify messages shown earlier in the stream:

20170430 [16:35] * RipleyAtomic just subscribed with a \$4.99 sub!

[mod=0;msg-id=sub;msg-param-months=1;msg-param-sub-plan-name=Channel\Subscription\s(darksydephil);msg-param-sub-plan=1000;room-id=261767;subscriber=1]

20170430 [16:45] * Deathblazer96 just subscribed with a \$4.99 sub!

[mod=0;msg-id=sub;msg-param-months=1;msg-param-sub-plan-name=Channel\Subscription\s(darksydephil);msg-param-sub-plan=1000;room-id=261767;subscriber=1]

Since May 24th it appears the traditional <twitchnotify> messages for new subs no longer appear, replaced by just these "msg-id=sub" notifications analogous to resubs.

Another thought: It seems new subs MUST hit share for the "msg-id=sub" notifications to show up, so some subs may never be noted in the chatlogs - DSP may get more subs from now that we can't easily see.

November 15th 2017 has Twitch introduce gifting subs, blog article here:

<https://blog.twitch.tv/give-the-gift-of-twitch-with-subscription-gifting-af4532ee137c>

The first gifted sub looked like this:

[12:40] <-

@badges=premium/1;color=#0700C7;display-name=GlewmanIII;emotes=;id=614be214-52bd-4d29-8e7b-b32800e37091;login=glewmaniii;mod=0;msg-id=subgift;msg-param-months=1;msg-param-recipient-display-name=Skullgod;msg-param-recipient-id=42328907;msg-param-recipient-user-name=skullgod;msg-param-sub-plan-name=Channel\Subscription\s(darksydephil);msg-param-sub-plan=1000;room-id=261767;subscriber=0;system-msg=GlewmanIII\sgifted\sa\s\$4.99\sSub\sto\sSkullgod!;tmi-sent-ts=1510778455142;turbo=0;user-id=31658625;user-type=:tmi.twitch.tv USERNOTICE #darksydephil

With notable parameters of msg-id=subgift instead of sub or resub & msg-param-recipient-id= stating the user ID of the new sub, vs. the normal user-id stating the person who gifted & may or may not already be a sub.

I'll edit them into the normal chatlogs in this format:

[12:40] * GlewmanIII gifted a \$4.99 sub to Skullgod!

[mod=0;msg-id=subgift;msg-param-months=1;msg-param-recipient-display-name=Skullgod;msg-param-recipient-id=42328907;msg-param-recipient-user-name=skullgod;msg-param-sub-plan-name=Channel\Subscription\s(darksydephil);msg-param-sub-plan=1000;room-id=261767;subscriber=0;turbo=0;user-id=31658625]

[11:55] <reggarz1> cheer45 the game engine is tied to the framerate, so if they changed it to 60, everything would run at double speed, or other unintended effects could happen. They would have to re-code the entire game to have it run at a different FPS

[12:00] <dominonova> cheer10 WWII has double xp gun game.

[11:37] <critical_for_d4ys> cheer50 #charity hi phil. excited for wwe sims. one of my favorite things you did for a long time. cannot wait :)
[11:45] <critical_for_d4ys> cheer20 is there other games you want to do a redemption run of it other than MGS games?
[11:46] <critical_for_d4ys> cheer50 #charity when ever i look up your videos on youtube. detractors vids always comes up first. makes no sense :(
[11:50] <aes0411> cheer10 I'll ask it as genuinely as I can -- when you play a fighting game online, how do you know when the opponent is mashing buttons or does a "random supper"? It could be the case where the opponent is mashing, but it could be good timing.

[12:10] <londorgael> cheer10 honest question, but why don't you sell some stuff? Sell your switch, maybe sell your iphone for a bit of money and buy a burner phone, or just general gaming accessories? Temporary measures to make sure you get some cash to keep your place for the beginning of the year. Once you're past that (+after getting your bits 2 months later), you can get a switch again if you really want it.

[12:30] <josefdabest1> cheer10 how would you say Fighting EX Layer compares to Street Fighter V? i don't know which game to get and would like your opinions on both games.P.S it's Joseph btw many people get confused with that no worries.

[12:31] <londorgael> cheer10 I realize you think it's a dumb question, and you may think im some troll. However, do you really think your PSVR or Switch or iPhone won't help you out? There aren't any significant games coming out for the Switch that youd play cause of the ad rev being taken by nintendo. You're asking for money to save your house, but you're mocking some genuine advice.

These next 4 cheers were missed on my raw client that confirms cheers as it had a random disconnect, my plain client did not. I will assume all 4 went through. OverRustle confirms no subs during this time either.

[20:54] <persona3master> cheer100 there was an annoucement that Atlus is remaking Catherine for PS4, not a port, what are ur thoughts?

[11:51] <seezstopbeingafk> cheer10 Hey Phil, I seen some data where they kept track of all of your tips, cheers, patreon, and an estimate of your ad revenue and they said that you make around 90K a year. Is this true? If so, how are you in so much debt while asking us to give you even more money? The average salary of an american household is closer to 40k a year.
[11:54] <gautyer> cheer10 Can you stop putting songs at the beginning of your streams? It was nice at first but now I always end up muting it then missing your pre-streams.

[12:10] <blurnull> cheer10 Those troll tips are idiots, but if you're really making over 50k a year and have tons a debt then maybe it's time to cut back and learn to manage your finances, Phil. How come you just don't sell your

house and move into an apartment where it should be much cheaper than living in a community. At least then you'll be far more financially secure then living paycheck to paycheck. Love you as a streamer, Phil. I don't want you to go :(

[14:44] <guccithejacuzzi> cheer20 Instead of having all that text on the screen, why not make it look more clean

and professional by creating a separate overlay and fitting the entire stream onto the overlay so that there's empty space for the text to be there. Just google stream overlays and you'll see what I mean. Regardless I love that you're implementing this. It'll attract people to get more involved I think.

[14:45] <papalou> cheer10 i think the layout looks beautiful daddyphil

[14:46] <clubsoda69> cheer50 Here's to playing horribly! Keep up the great work! F***K photoshop! LOL

[14:48] <guccithejacuzzi> cheer50 I didn't mean to be harsh Phil. But you don't need to do everything yourself, I'm sure people will do those overlays for you asking for nothing in return, myself included.
